

CITY OF BURBANK AND SAFE ROUTES TO SCHOOL PRESENT

WALK AND BICYCLE AUDIT SUMMARY

IMPROVING THE STREETS USED BY OUR STUDENTS TO WALK AND BIKE TO SCHOOL

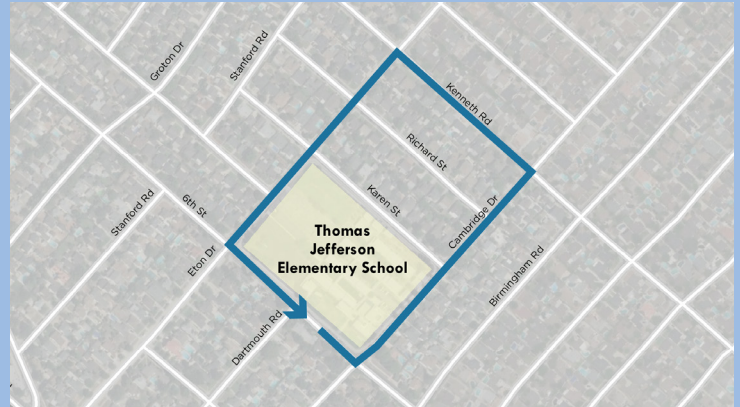

Thomas Jefferson Elementary School

Wednesday, May 2, 2018
7:45-9:30AM

PARTICIPANTS

23 Parents & Community
Members

4 City/School Staff Members

Walk Audit Route

SUMMARY

Project team staff walked around the school with school and city staff and parents to identify barriers and challenges for students walking and biking to and from Thomas Jefferson Elementary School. During the workshop following the walk, project team staff documented participants' concerns and discussed possible solutions.

GENERAL FEEDBACK

- Speeding is commonplace around the school. 6th Street, Scott Road and Kenneth Road were identified as streets where speeding tended to occur.
- Vehicles ignore existing stop signs at intersections such as 6th Street and Cambridge Drive.
- Many parents double-park or park in red curb zones, where they block crosswalks.
- Children do not always exercise caution when they cross the street.
- More crosswalks are desired, particularly at locations with speeding or long crossing distances.
- Speed bumps, speed feedback signs and enforcement can help resolve speeding.

Discussing pedestrian issues on the walk with parents

Debrief session with parents after the walk
